

CS471: Operating System Concepts

Fall 2006

Guidelines for Examination II

Date: November 11, 2005 (Saturday)

Time: 8:30-11:30 AM

Place: Teletechnet centers (Learning Assessment Center in Gornto Building for Norfolk campus)

Points: 150

Chapters covered: 9, 10, 11, 12, 14, 15, 17, 18

Number of questions: 5

Virtual memory:	Chapter 9 ---	1 question
File systems:	Chapters 10-11 ---	1 question
Mass-storage structures:	Chapter 12 –	1 Question
Protection and security:	Chapters 14-15 --	1 Question
Distributed Systems:	Chapters 17-18 --	1 Question

Each question will have several parts.

Type of questions: Some can be answered in one line. Others may need some explanation. Some involve numerical computations.

Manage your time well. 180 minutes and five questions.

There is a tendency for some students to write pages and pages when the answer is just one line. So answer only what is asked, not all that you know. The space provided for each question is adequate. **ONLY THE WORK IN THE PROVIDED SPACE WILL BE GRADED. Anything OUTSIDE the provided space will not be graded.**

Unless arranged well in advance, no make-up test will be provided. So if you cannot take the test at the specified time and day, let me know well in advance so you can take the exam earlier.

You **MUST** have the NEW University I.D. and your University eight digit number (especially at the Gornto Test Center in Norfolk). If YOU do not have these items, YOU will not be able to appear for the exam.

**ALL YOUR WRITING MUST BE IN BLACK INK FOR
READABILITY AND FAXING**
